To Whom it may concern,

I would like to highly recommend Stephanie Moses as an elementary school teacher. Stephanie has taught in my Grade 2-3 class at Buttonville P.S. as a student teacher, for 14 weeks.

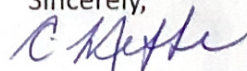

Stephanie is reliable, punctual, and flexible. She carries herself in a professional demeanor when interacting with parents, teachers and administration. Stephanie displays patience when working with students, as well as a great sense of humour. She has experience teaching on-line in our Google Classroom, as well as in-class. In our Google Classroom, Stephanie did whole-group lessons as well as teaching small groups and individuals in our "Break-Out Room". She often incorporated various forms of technology such as "Jam Boards".

When in class, Stephanie taught whole groups, small groups and individuals. She often incorporated technology within her lessons. She assisted the teacher when developing lessons, Growth Plans, and incorporated IEP expectations. Stephanie worked with children who had ESL needs, students who attended our Student Support Centre, and a child with Autism Spectrum Disorder. She was shown many strategies conducted in Reading Recovery and conducted Observation Survey activities. Stephanie provided a variety of lessons, and conducted Diagnostic, Formative and Summative assessments. She displayed very good classroom management as well.

She attended Staff Meetings and daily recess duties.

I feel Stephanie would be a great asset to a school and a great teacher in an elementary classroom.

Sincerely,

  
Cheryl Meffe
